The 2010 OCA Seedstock Improvement Sale *Vaccination Record*

Health Requirements:

- Each bull, regardless of state origin must be accompanied by:
 1. A certificate of veterinary inspection stating Tuberculosis (TB) and Brucellosis status and showing no visible signs of infectious, contagious, or communicable disease. Bulls must test negative to TB and Brucellosis within 30 days prior to delivery to the sale. Bulls from accredited and certified herds do not need to be TB and Brucellosis tested but certification and accreditation numbers must be listed along with qualifying test dates.
 2. A vaccination record, stating the bull has been vaccinated for IBR-PI3; BVD; Leptospirosis (5 strain); BRSV vaccine; Clostridium chauvoei, septicum, sordellii, novyi, perfringens types C & D, bacterin-toxoid; Pasteurella haemolytica and multocida,; and Haemophilus Somnus all according to manufacturer’s recommendations.
Vaccinations should be given 21 to 60 days prior to sale dates.
- Bulls must be free of lice, grubs, ringworm, warts and be dewormed.
